

DESIGN CONTEST FOR SANTA'S FLOAT

The Greater Manassas Christmas Parade Committee has been tasked by Santa to update his float to be used during the Manassas Christmas Parade. His current float has worked very well on the streets of Manassas for the past 65 years but it is time for a change.

A contest is being held to design the Santa float. All interested Art Departments, groups and individuals are encouraged to submit their design. The contest design winner will be recognized in the Parade program, receive a \$100 HMI gift card and be able to participate in the parade along with Santa.

The winning design must meet the following guidelines:

1. The finished design must fit on a float bed that is 8 ft wide by 20 ft long.
2. The actual float must have ample open seating for Santa and Mrs. Claus.
3. The float must be designed to be constructed out of material able to endure all weather conditions.

Designs must be postmarked by October 1, 2010. Mail your design to:

Greater Manassas Christmas Parade
P. O. Box 2800
Manassas, VA 20110

Final judging will be done by the Christmas Parade Committee. Pictures of the float used in the past parade are attached as an example of what the current float.

Santa and the committee look forward to having a "new ride" for the 2010 Greater Manassas Christmas Parade!
